COMPATIBILITY

BUILT TO LAST

Many imported protection products use single-layer coatings and thin steel sections that can show corrosion over time. Mebrox products are engineered differently.

**3 mm**

HIGH-STRENGTH STEEL
Thicker than standard alternatives

**2**
STAGE

COATING SYSTEM
E-Coat + Powder Coating

**1.000 hr+**

SALT SPRAY TEST
1,000+ Hours Tested

SURFACE PROTECTION SYSTEM

**1**

STEEL PREPARATION
Degreasing & phosphating

**2**

E-COATING
Maximum corrosion protection

**3**

POWDER COATING
UV-resistant textured finish

**4**

QUALITY CONTROL
Coating thickness inspection & final quality check

READY FOR THE SHELF READY FOR EXPORT

BRANDED BOXES WITH FULL FOAM PROTECTION

Maximum protection against shipping damage

RETAIL-READY PACKAGING

No repacking required

COMPACT KNOCK-DOWN DESIGN

More units per container, lower freight costs

EXPORT PALLETS – OCEAN FREIGHT TESTED

Built for international transportation
